

## **The Individuate System of Consciousness Expansion**

The Neophyte initiation contained in the Individuate Bible is intended to utilize comedy to defuse fear. It could be considered an introduction to the biosurvival first circuit. Some basic Jungian concepts are introduced, and the initiate is encouraged to read a Jungian primer or [Man and His Symbols](#) by Jung.

The process of individuation pioneered by Jung is endorsed by the initiations. The student of this system gains more by studying Jung's ideas than by just focusing on the 8 circuit model; however, Jung is just a starting point, and the Individuate will hopefully study the science of mental health as a point of self discipline.

Individuation Level One is a proper introduction to the biosurvival first circuit of Timothy Leary's 8 Circuit Model. Level One through Level Seven of the Individuations are intended as a method of creatively "entering" the circuit that corresponds to the number of the Individuation. Level Four is split into two parts, both of which involve entering the fourth circuit of consciousness.

Before the initiation into the particular circuit, during, and after, it might be helpful to meditate on the [Eight Basic Winner/Loser Scripts](#), on the winning script being activated by entering the circuit thru ceremony.

When entering the fourth circuit, I would write down my moral code/code of loyalty after the part one initiation, and what I think is ethically appropriate/loyal apart from conditioning after the part two initiation. If of the opinion no ethical code or loyalty is justifiable, or of the opinion you just don't want one, I'd write about that instead. This site has a [series of short essays](#) on ethics, loyalty, and amoralism.

There is no Level Eight Individuation because the final Individuation is the communication between the Individuate and the rest of the universe: at this stage in the Individuate's progress it would be helpful to write one's own initiation.

Ideally, the Individuations would be spread out at the discretion of the initiate, taking substantial time on each "level" to study the circuit of consciousness represented, Leary and Robert Anton Wilson's books on the subject, and the initiate's own circuit's conditioning and possible purification. At the very minimum, a couple of months should pass before each new Individuation.
