

Level Four Part Two Individuation Ceremony

This Individuation does not seek to summon actual gods or goddesses. This Individuation seeks to evoke the purely creative manifestation of all deities from within the initiate's own consciousness.

High on life and love,
while reciting the italics poetry as a mentally emanated chant,
one visualizes one's aura expanding into all data.

A golden city surrounds you emanating simple state love,
all time and space surround the golden city as chakras of
simultaneous retention.

When stated, "Blue and crimson blood, Glory and Power," Chesed
as left shoulder emanates love control / glory in a fight, and
Geburah as right shoulder emanates memorized martial art
applicable move or power.

*All the Gods that were and Are
Come to me from near and Far
Internal light shine tonight
In the internal splendor, I am reborn
Blue and crimson blood, Glory and Power
The Aphrodite and Hermes' ASCENT
The Golden Rapture of the Golden Flames
carry me through the Golden Gates
All that I have to give, I give
Doused with the Waters of Life.
The ashes and dust,
Lust of the past.
The Sun and Moon
Stars and Void
Are ONE.*
